

## Primary Five, Six and Seven

Below you will find a list of suggested activities should there be an unplanned school closure.

### Literacy

- Revise this term's spelling words for example rainbow writing, dictionary skills, create word searches and crosswords.
- Work on set reading where possible. Alternatively write a review of a book of your choice. Design a front cover for the book. Map the journey of the main character.
- Write an imaginative story entitled 'Crack in the ice!' - remember to use VCOP.
- Write a winter poem using similes and metaphors.
- Literacy links - Spelling City; Topmarks - Space Hangman

### Maths

- Practise times tables in preparation for assessment when returning to school.
- Time yourself! See how quickly you can write out a times table then try and beat your record.
- Continue to develop your skills in measuring and weighing by following a recipe. Take pictures to share your work with the class on return to school.
- Weigh and measure items from around the home and create a table to record your results.
- Carry out a survey of your choice for example favourite sandwich filling and display your results in a bar chart or pie chart.
- Maths games - Topmarks - Loop cards, Hit the button, Countdown; Sumdog

### Social Studies

- Research weather conditions and how icicles and snowflakes are formed.
- Record daily temperatures in a table then display results in a graph.
- Choose a Scandinavian country, research and create a fact file. Compare their weather to ours here in Scotland. For example how do they cope in wintry weather? Does their daily life change in the winter?

### Art

- Design and make a Christmas decoration. Write down instructions detailing how your decoration is made - photographs or labelled diagrams would be useful.
- Make a 'Wintry Scene' collage.
